Typhoon HONG KONG
International Reviews

Epic song, I really enjoyed the 80s vibe to it, great instrumentation and solid vocal

The powerful guitar riff, catchy chorus, and vocal harmonies create a great 80s rock feel

Everything sits where it should and the track has weight without sounding overcooked. The guitar solo is a highlight too, it serves the song instead of showing off. (Roger Ricks)

Una buena composición y producción musical muy bien llevada a cabo.

METAL JUNKBOX

"Hong Kong" mostra que a experiência só tornou o grupo ainda mais sólido e confiante, vale a pena conferir toda a potencia da banda.

Good riff, lots of sexy lead play and a capable vocal. That solo was stupendously good
